Sennell Faux Beams Indemnity

Sennell has produced a quality fake wooden beam for decorative purposes, to bring charm and warmth to your home or DIY project.

Sennell cannot be held responsible for damage to property or personally injury, where the product has been used in unsuitable applications

Product is not suitable for use in any structural application or where it is used to support heavy weight.

Product is not suitable to be used where it may be exposed to temperatures exceeding 60 degrees centigrade.

Product is not suitable for outside use or where product may be exposed to heavy ultra violet light.

Faux Beams are best cleaned by wiping with a clean water dampened soft cloth. Do not use severe soaps or solvent based cleaning materials on the product.

Do not stick any type of adhesive tape or glue on the coloured surface of the product.

If touching up of any damage is required, use only acrylic based PVA paints.
